

## TPS Email Setup on iPhone

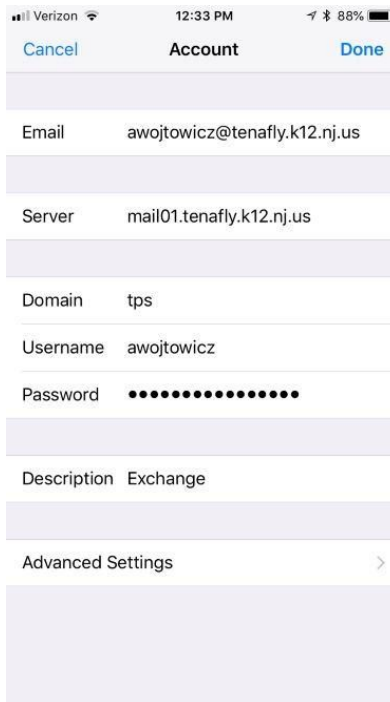

To setup your email first go to your "Settings", then "Accounts & Passwords".

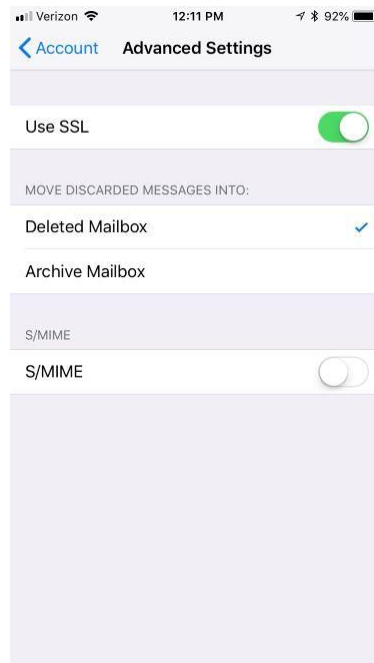

Click on "Add Account" and will see this screen and choose "Exchange".

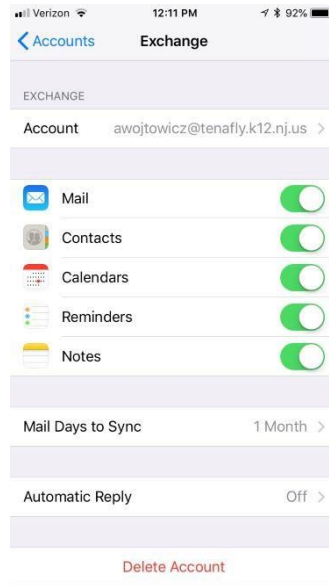

Add your Tenaflly email address and a description, like "Exchange". Fill out all the information like this picture.

Under "Advanced Settings" make sure it looks like this.

After you have added your account go into the new “Exchange Account” and whatever you want to sync with your email account.

Your email should start to come in after a minute or two.
