RENTAL INFORMATION

If you are currently renting, please remember that if you return your instrument over the summer then you lose your credit towards eventually purchasing the instrument. It is wise to keep the rental going so that you keep earning credit towards eventually purchasing the instrument.

If you are not currently renting an instrument, please go to any of these places to fill your request. You can have them deliver the instrument to the school ready for your child when they get back to school in September.

LOOKING TO PURCHASE AN INSTRUMENT?

Below is a list of good, reputable instrument brands for band instruments if you are looking to purchase. These are not the only good brands, but it is a good place to start when looking. Please try to avoid purchasing cheap instruments that are priced too good to be true; they will only cause problems. Going to a local store is always best as they have professionals that can talk to you about the instruments before you choose one. String instruments are not on this list as it is better to purchase a string instrument from a string shop (such as the two listed above) than looking online.
