

November 29, 2021

Dear TPS Community,

We wanted you to be aware of an incident that occurred at the high school this afternoon where a student was scratched with a screwdriver by another student. The student who was scratched was checked by the school nurse, is fine, and was able to return to class. No additional medical attention was required. As the incident occurred in the hallway, the high school staff responded immediately, and the school went into shelter-in-place for the safety of everyone and to diffuse the situation. The police and EMTs were called in to further assist our staff. Our administration is investigating the issue further. Thank you for respecting the privacy of all involved.

Yours in Education,  
Shauna C. DeMarco  
Superintendent, Tenafly Public Schools
