June 4, 2022

Good evening, Tenafly Families, Staff, and Students:

The District identified the occurrence of a security incident on June 2, 2022 that involved the encryption of data on certain computers in our network. We immediately initiated our response plan, isolated devices, shut off certain systems, and launched an investigation.

We are working with cybersecurity experts who have worked with others that have had similar issues. We are focused on securely restoring our systems as quickly and as safely as possible. The School District does not anticipate any interruption in class schedules.

We are working quickly to determine what occurred in addition to restoring services. While our investigation is in the early stages, should it be determined that any individuals' personal information was accessed or acquired, we will communicate directly with those individuals.

I know that this is a concerning issue for all of us. While we believe this is an isolated incident, we are committed to taking steps to assist with the prevention of this type of incident from occurring again. We are installing enhanced security tools on devices across the network. As our investigation continues, we will look for opportunities to further enhance our existing security measures.

We apologize for the inconvenience and appreciate your continued patience and support.

Sincerely,

Shauna DeMarco
Superintendent
